

**in Over a Thousand Cities
United States and Canada**

We know you will find our service faster and easier to use than any other Internet service provider. When you connect into our network, you are connecting to the largest and fastest Internet network in the world.

Robert H. Traphan founded The Link, L.L.C. back in 1995, in Montgomery, AL. The company offers high quality connectivity solutions using the Internet and Internet-based technologies. These solutions are provided, even in rural areas, at prices that everyone can afford. We are focusing on providing the same high quality service in rural areas that has allowed us to grow in larger cities.
